Porter's Porches & Conservatories

Stylish windows and doors, and so much more

Windows, Doors and Conservatories

Established in 2000 and still ahead of the game, Porter's Porches use a blend of vast industry experience and cutting edge technology to deliver excellence every time.

Our unique combination of the old and the new enables us to offer the best solutions to your home improvement needs. If you have the dream, Porter's Porches has the means to realise it.

All Porter's Porches windows, doors and conservatories are manufactured to exceed British Security Standards and meet the Official Police Security Initiative. So wherever you are, your family and possessions will be safe with us.

Porter's Porches will transform your property into a more comfortable, desirable and safe place to be. But don't just take our word for it, come and see how Porter's Porches can give you so much more to come home to.

Windows - Breathe life into your home

Not only are they one of the most prominent visual features, they also let in light, keep out noise and help to maintain a comfortable room temperature. What's more, revolutionary energy efficient windows can now even enable you to save money! It sounds daft to say it, but a set of new windows really will improve your life.

Doors - Express yourself. Protect yourself

Everyone wants to be safe in their home, but no one wants to live in a prison. That's why we have a wide range of elegant yet secure PVCu and composite doors. Available in a variety of styles, colours and glass patterns, you can choose a door to suit your personality and give your home real character.

Conservatories - June or December, February or September

A conservatory quickly becomes the hub of any home; the room that everyone wants to be in, the best seat in the house. Cool when it's warm and warm when it's cool, it's no longer just a room for summer, nor does it have a specific purpose. Teaming the views of the outdoors with the comfort and ambience of the indoors; perfect for any occasion.

Window Energy Ratings - Windows that don't cost the Earth

Energy rated windows will enable you to conserve energy, reduce your household carbon emissions and – here's the best bit – save money. Look out for the official energy rating on all of our energy efficient windows. This shows you which windows are the most energy efficient, and which will save you the most money.

Secured By Design - Because above all your home should be safe

Making your home more secure shouldn't mean making it look and feel like a prison, nor should it mean sacrificing other requirements such as energy efficiency, convenience, and aesthetic appeal. With our Police Approved, Secured by Design windows and doors, it doesn't!
