

New Enhanced Security Products

Camden Group offers customers a brand new and extensive range of high security products, all tested and certified by BSI/Kitemark:

PVCu Windows - Tested to BS 7950

*PVCu Single Doorsets, French Doors
& Composite Doors - Tested to PAS 23 & 24*

The table below explains what you need to specify in order to comply with "Enhanced Security" requirements:

Product	Profile	BSI Testing	Other Info
Casement Window	60C, 60S, 70C & 70S	BS 7950	Specify sash protectors and shootbolts. (Full or standard reinforcing, TSL Espags - all optional extras)
Tilt N Turn Window	60S, 70C & 70S	BS 7950	Specify high security Tilt N Turns and full reinforcing
Single PVCu Doorsets	60C, 70C & 70S	PAS-24	Specify Hook-Lock and PAS-24 Secure Cylinder. (Low thresholds, open in/out, mid-rail, Dog Bolts - all optional extras)
French Doors	70C (open out only)	PAS-24	Specify PAS-24 Master Door Lock. (PVC threshold only)
Composite Doors	All styles	PAS-24	As standard build. PVC or Low Threshold

Secured By Design

All the products in Camden's new enhanced security range are available in "Secured by Design" format¹. To order your "Secured by Design" product, simply specify Laminate/Toughened Insulated Glazed Units in place of Toughened Units².

*"Secured by Design" is a UK based crime prevention initiative which encourages the development and use of products with enhanced security designed in. "Secured by Design" is available for Camden Glazed Products only.

**Customers should check with local regulations as additional laminate glass may be required.
